ISSUES

Responsible sourcing

Responsible sourcing is our priority and as such our Responsible Sourcing Policy has been reviewed to ensure that all aspects are compliant. The revised policy has been posted onto our website and we have advised of this through our newsletter and social media platforms.

SUSTAINABLE DEVELOPMENT GOALS (SDGS)

Recyclable Packaging

We use fully recyclable and/or biodegradable products in almost all aspects of our packaging. As much as possible all components are sourced as close to us as possible.

Through our due diligence activities Ocean Diamonds have identified the following SDGs as relevant to our business; Recyclable packaging as we aspire to be a responsible choice for customers.

We have implemented these SDGs through the following methods: we have changed from plastic padded envelope packaging to a cardboard envelope with added paper as necessary. We have changed our security bags to ones that are not only fully recyclable but also made from 80% post-consumer recycled plastic. We have eliminated the need for all plastic Sellotape by purchasing a paper label printer.

ACTIONS

Ocean Diamonds have the following policies in place:

Statement of Responsible Sourcing
Diamond Traceability and Assurance Procedure
Staff Protection
Modern Slavery Statement
Know Your Counterparty
Privacy
Health & Safety
Community Support
Legal Compliance Checks
Grievance Mechanism

These policies can be found on the footer of our website or by following this link: <https://oceandiamonds.com/policies/>

As a company we have already acted regarding the following, responsible packaging and we are doing so through endeavouring to source packaging that is recyclable and/or biodegradable from suppliers as local to us as possible. When looking for any new business associates, we endeavour to connect with those that are also members of Responsible Jewellery Council and share our ethical practices.
